### PROFILE

An experienced and motivated professional with a background in warehouse management, marketing, and inventory control. Acknowledged for optimizing operations, reducing expenses, and improving team productivity. Skilled in utilizing analytical capabilities and leadership skills to thrive in dynamic warehouse settings and elevate overall operational effectiveness.

### WORK EXPERIENCE

#### Warehouse Manager

Üsküdar Trading Co.Ltd (Tiryaki Agro) 2022-2024

##### Responsibilities:

- Oversaw daily warehouse operations to guarantee efficient inventory management, shipping, and receiving procedures.
- Cultivated a high-performing team, emphasizing productivity enhancement and safety in the workplace.
- Introduced operational protocols that boosted efficiency and minimized errors.

##### Achievements:

- Enhanced inventory accuracy by implementing an advanced tracking system, resulting in a notable decrease in discrepancies.
- Realized cost savings by streamlining warehouse space and logistics operations.
- Executed a successful warehouse relocation initiative, resulting in improved storage capacity and operational effectiveness.

#### Warehouse Keeper

Balance General Trading Co.Ltd 2015\_2016

##### Responsibilities:

- Maintained precise inventory records and efficiently organized stock.
- Supervised stock handling to prevent damage and ensure safety.
- Conducted regular inventory audits to promptly resolve any discrepancies.

##### Achievements:

- Enhanced stock turnover and reduced holding costs by optimizing inventory management processes.
- Implemented a barcode tracking system to enhance inventory accuracy and operational efficiency.
- Successfully managed inventory during peak periods through strategic planning and coordination.

#### Supervisor

Yilmazturk international for development 2018\_2019

##### Responsibilities And Achievements:

as department supervisor, I manage assembly staff to ensure efficient production and oversee the marketing team to execute promotional strategies. I also coordinate between both teams to align operations with market demands and production capabilities.
