## Profile Summary

Dynamic team leader with extensive expertise in Six Sigma and Lean Six Sigma methodologies, driving efficiency and excellence in production and mechanical engineering. Proven track record as a trainer and advanced Person In Charge (PIC), leveraging a strong aerospace background to innovate and uphold high standards. Poised to excel as a supervisor or manager in leadership and engineering roles.

## Professional Experience

### **Emirates Flight Catering - Bustanica, Dubai**

**Designation: Production Lead**

**2022 - Present**

#### **Roles and Responsibilities:**

**Production Planning:** Led daily operations, optimizing resource allocation and workflow to meet production targets in vertical farming.

**Quality Control & Assurance:** Maintained high standards of food quality, ensuring compliance with safety and hygiene regulations throughout production.

**Team Leadership:** Supervised a team of 60+, optimizing task assignments and driving team productivity.

**Inventory Management:** Implemented FIFO techniques to manage stock levels, reducing waste and ensuring availability of ingredients and packaging materials.

**Order Processing & Dispatch:** Managed customer orders, scheduled packing and dispatch, and ensured product quality and quantities for timely delivery.

**Irrigation & Nutrient Management:** Monitored irrigation systems and nutrient dosing, maintaining precise EC and pH levels for optimal plant health.

**Environmental Control:** Controlled temperature, humidity, and air circulation in vertical farming environments to optimize plant growth.

**Lean Six Sigma Expertise:** Applied Six Sigma methodologies to streamline processes, reduce inefficiencies, and enhance operational excellence.

**Plant Health & Maintenance:** Monitored and maintained high standards of plant health, ensuring consistent growth and quality of leafy greens.

**Training, Safety Champion & PIC:** Trained staff on SOPs, acted as Safety Champion, and served as Person In Charge (PIC), ensuring safety protocols and compliance.

**ERP System & Fleet Coordination:** Managed Odoo ERP for accurate data entry and coordinated fleet operations for efficient deliveries.

**Compliance & Safety:** Ensured adherence to SQF and HACCP standards, promoting quality and safety across all operations.

### **INDO-MIM PVT LTD Bangalore, India.**

**Designation : Production Engineer**

**2020 - 2021**

- ✓ Quality Assurance
- ✓ Surface Treatment Expertise
- ✓ Production Planning
- ✓ NDT
- ✓ R&D Process Development
- ✓ Precision Measurement
- ✓ Electro Plating Machining
- ✓ Aero space Standards

## Wicked Ride Adventure Service Pvt Ltd. (July 2019 to Jan 2020)

**Designation:** Production and Service Engineer

### Key roles:

Handling Electro-Mechanical devices and guiding workers to solve issues.  
Final inspection of serviced vehicle and surveying plant.

### Professional Skills

- Standard Operating Procedure
- Lean Six Sigma
- Root Cause Analysis
- DMAIC
- Cross Functional Collaboration
- Production Management
- Quality Assurance & Compliance
- Manpower Handling
- Inventory Control
- Strategic Planning & Execution
- Engineering Drawing
- ERP - Odoo, MS Dynamics 365
- Power BI
- MS Office - Excel, Word & PP
- Research & Development

### Education

Bachelor of Engineering in Mechanical

Visvesvaraya Technological University (VTU), Karnataka , India

Graduated with **85.23%** Grade - **8.3/10**

### Certificate

- Lean Six Sigma
- Six sigma – Black belt
- Excel and ChatGPT
- Certified Trainer
- Advanced PIC by Highfield International
- HVAC and MEP by SPECTRA

### Achievements and Projects

- ✓ **Resolved Production Planning Issue**  
Developed and submitted a data-analyzed plan to address production planning inefficiencies. This solution optimized scheduling and resource allocation, significantly improving operational efficiency.
- ✓ **Implemented Quality Improvement Report**  
Created and executed a quality improvement report to standardize practices across production. Enhanced quality consistency and compliance, leading to higher product standards.
- ✓ **Enhanced Packing and Labeling Process**  
Introduced a tracking record system for the packing and labeling process. Improved accuracy and compliance by facilitating easy tracking of root causes for errors.
- ✓ **Implemented Production Metrics**  
Established production metrics to monitor and track production status effectively. Enabled better performance evaluation and decision-making.
- ✓ **Developed Hybrid Formula Car**  
Designed and developed a hybrid formula car, achieving 5th place overall in India at the Budh International Circuit (Noida) engineering competition. Demonstrated advanced engineering skills
