PROFILE SUMMARY

- Results-driven professional with over **3 years of experience specializing in Supply Chain Management and Logistics Coordination.**
- Skilled in Inventory Optimization, Cost Efficiency, and Transportation Management, with a strong emphasis on Client Communication and Problem Solving.
- Expertise in Negotiation Skills and Data Analysis to enhance operational efficiency and drive impactful results.
- Committed to delivering exceptional performance through strategic planning and execution, leveraging data-driven insights to optimize supply chain processes.

EMPLOYMENT OUTLINE

June 2021 – August 2024: A' Niche Infotech Solutions Pvt Ltd., Mumbai, India
Supply Chain Executive

Key Deliverables:

- **Inventory Management:** Tailored inventory management systems for clients like BASF, TATA, and Crompton. Manage inventory with FIFO to minimize dead stock and achieve smooth stock clearance.
- **ERP utilization:** Managed inventory operations using ERP software backed by SAP, ensuring accurate stock levels, timely replenishments, and efficient order processing.
- **Tracking Tool:** Created an Appsheet tool for real-time inventory and shipment tracking.
- **Demand Forecasting:** Used historical data to predict demand and recommend stock levels.
- **Supplier Management:** Assess vendors based on cost, payment terms, and delivery performance. Secure favourable supplier terms to ensure a reliable supply chain.
- **Sourcing and Procurement Strategy:** Developed and executed sourcing strategies for industrial barcode printers, scanners, labels, and ribbons. Identified cost-saving opportunities and optimized procurement processes, resulting in a 15% reduction in procurement costs.
- **Shipment Management:** Coordinated delivery schedules and choose cost-effective transport methods. Identified opportunities to reduce shipping costs while maintaining service quality.
- **Process Orders:** Handled weekly orders, documentation, and follow-ups to ensure timely delivery.
- **Develop Strategies:** Implemented strategies to enhance supply chain efficiency and drive cost savings. Conducted regular analysis to identify and address process bottlenecks.
- **Clear Stock:** Proposed and executed strategies for clearing expired stock, optimizing inventory turnover.
- **Team Management:** Led a team in executing supply chain operations for a trading company, focusing on inventory management, order fulfilment and sales of software solutions. Drove process improvements that enhanced efficiency and reduced operational costs, while ensuring high level of customer satisfaction.

PROJECTS

- **Industry Project with BAYARA:** Developed a predictive model to analyze the impact of variable fluctuations on goods prices, enhancing supply chain efficiency and cost reduction.
- **A Study on Warehouse Management System for Perishable Foods in India:** Analyzed the cold chain industry for perishable foods, proposing methods to minimize revenue loss due to expired goods.
- **Academic Project with Ogilvy Advertising Firm:** Gained insights into client onboarding processes, including budget assessment and target market identification for advertising campaigns.
