## WORK EXPERIENCE

---

### MACHINE OPERATOR / WAREHOUSE

Littelfuse Philippines Inc.

Lima Technology Center, Special Economic Zone, Lipa City, Philippines

2020-2025

#### **Company Description:**

Littelfuse is an American company that designs and manufactures electrical products, including circuit protection devices. They work with customers in the electronics, industrial, and transportation industries to improve the safety and reliability of their products. (Products: Fuse, Switches, Automotive Sensors, etc.,)

#### **Job Description:**

- **Fuse Quality Check** - ensures that the fuse is reliable, safe, and effective in protecting electrical circuits. Any faulty or substandard fuse should be replaced with a certified, correctly rated replacement to prevent circuit failures and safety risks.
- **Fuse Visual Inspection** - is a critical step in assessing its condition and ensuring it is safe and functional. This process helps identify physical defects, damage, or signs of failure before performing electrical tests.
- **Fuse Evaluation** - is a systematic process to assess the condition, functionality, and reliability of a fuse. This ensures that the fuse can effectively protect electrical circuits from overcurrent, short circuits, and potential hazards.
- Set up and operate dial indexing assembly machine according to engineering specifications.
- Adjust machine settings and parameters to meet detailed specifications and improve production efficiency.
- Monitor production processes to ensure parts meet established quality standards.
- Conduct inspections and tests on finished products to verify conformance to specifications.
- Maintain accurate records of production output and quality issues.
- Inventory of warehouse stock.
- Loading and unloading delivery materials.
- Packing and sorting delivery items.
- Receiving and inspections of incoming materials.
