PROJECTS

Instagram

I run a professional Instagram page @ashhfire where I create automotive content as a digital creator based on different Cars & Bikes and portray them in a cinematic manner with suitable background music, I have been doing this for more then a year and have a strong passion for automobiles and I strive to inspire more people to see the beauty in this community.

Instagram

I also have a Instagram page as @teyvats_fighter where I edit and post gaming content, rather then raw gaming videos I make them into more cinematic, short movie like videos with suitable music in the background.
