SKILLS

(BS) in Statistics, it's important to highlight both technical and analytical skills, as well as relevant software and tools used in statistical analysis. Here's an example of how you can organize and present your skills:

Technical and Analytical Skills:

STATA (data management and statistical analysis)

Git (version control for collaborative work)

Soft Skills:

Problem-solving and critical thinking

Attention to detail

Strong communication skills (both written and verbal)

Teamwork and collaboration

Time management and ability to meet deadlines
