PERSONAL STATEMENT

A highly motivated, adaptable, versatile person and team player, specialising in the 'transportation and logistics' sector with a solid background in health and safety management. Proficient in working on high-end logistics planning with warehouse and open yard management experience. Capable of managing a large workforce and delivering to client expectations at all levels whilst working with multicultural workforces. A self-motivated individual with an adeptness in communication across all levels. Skilled in developing and optimizing site logistics solutions to meet project needs while ensuring safety compliance. Strong background in traffic management and inventory management within budgetary constraints. Currently holding numerous driving licenses from Middle East countries which are renewable.

KEY PERSONAL AND MANAGERIAL STRENGTHS

- Ability to analyse potentially complex and difficult situations and to recommend appropriate, practical, and responsive solutions in a sensitive manner.
- Exceptional at communicating Health & Safety information and procedures at all levels.
- Able to work with colleagues by displaying a pragmatic constructive approach.
- Extensive experience in the effective motivation of personnel to advanced levels of performance, productivity, and professionalism, successfully structuring highly dynamic and focused teams.
- Strong ability to utilise a high degree of creativity, innovation, initiative, and vision in order to achieve objectives, solve complex/technical problems, and present new concepts and ideas.
- Utilising a participative, supportive, results-orientated training style with a high emphasis on quality, performance management, and the overall improvement of professional relations on an ongoing basis.
