- Leadership
- Problem - Solving
- Critical Thinking
- Learning and Adaptability

## LANGUAGE

English

Hindi

## About Me

I am a creative and self-motivated individual with a strong command of AI prompting, animation, and visual design tools. I specialize in generating high-quality content using artificial intelligence and have strong critical thinking abilities. I am eager to apply my skills in a dynamic environment that values innovation and growth.

## BACKGROUND

I name is Harmanpreet Singh from Amritsar, India, and I have completed my higher secondary education in the non-medical stream with 77% from Ashok Vatika Public School (CBSE). I possess a strong foundation in programming languages including Python, C, and C++, and have developed a deep interest in artificial intelligence. I frequently use AI tools to solve problems, create unique images and videos, and experiment with creative prompts. Alongside my technical skills, I am a critical thinker and quick learner, always eager to explore new technologies and expand my knowledge in the AI field. In my free time, I enjoy cooking and working on personal projects that blend creativity and innovation. My goal is to continuously grow in the world of technology and contribute meaningfully to the digital future.
