PROFESSIONAL EXPERIENCE

Creasoul Labs, Kerala , India

Dec 2018 – 2019

Web Designer

- Create visually appealing and user-friendly website layouts, incorporating principles of design, usability, and accessibility.
- Design web pages, graphics, and multimedia elements using tools such as graphic design software, HTML, CSS, and JavaScript.
- Design websites that are responsive and compatible with various devices and screen sizes, ensuring a seamless user experience across desktops, tablets, and mobile devices.
- Develop and edit graphical elements, including images, icons, and illustrations, to enhance the visual appeal of the website.
- Conduct testing of website features, identify and resolve design-related issues, and collaborate with developers to ensure proper implementation.
- Integrate content elements into the design, ensuring a harmonious blend of visuals and textual information.

Blueroe Labs , Kerala , India

Oct 2016 – 2017

Software Developer

- Write efficient, maintainable, and well-documented code using programming languages such as Java, Python, C++, or others, depending on the project requirements.
- Implement best practices in coding, ensuring code quality, readability, and adherence to coding standards.
- Develop and execute test cases to ensure the functionality, reliability, and performance of the software.
- Debug and troubleshoot software defects, ensuring timely resolution.
- Flexibility and adaptability to learn and work with new technologies, tools, and development methodologies.
