Professional summary

I am a highly skilled and experienced light vehicle driver with over 5 years of experience in the transportation industry. Throughout my career, I have consistently demonstrated exceptional driving skills, excellent time management abilities, and a strong attention to detail. My biggest achievement has been maintaining a flawless driving record while delivering goods to various locations within tight deadlines. I possess excellent communication skills, which enable me to effectively coordinate with clients and team members. My best qualities include reliability, adaptability, and a strong work ethic. I am also proficient in using GPS systems and have a thorough knowledge of traffic laws and regulations. I am confident that my skills and experience make me a valuable asset to any organization seeking a reliable and efficient light vehicle driver.

Experience

Driver cum meter reader

November 2019 - October 2024

Abu Dhabi Distribution company (ADDC), United Arab Emirates, Abu Dhabi

As a Driver cum Meter Reader at Abu Dhabi Distribution company (ADDC) in the United Arab Emirates, I had the opportunity to be a crucial part of ensuring efficient and accurate delivery of electricity to customers. This role required excellent time-management skills, attention to detail, and the ability to work independently.

- Conducted daily meter readings for residential and commercial customers
- Maintained accurate records of readings and reported any discrepancies
- Safely drove company vehicle to various locations within designated routes
- Communicated with customers in a professional manner

Responsibilities:

- Daily meter readings
- Accurate record keeping

Driver cum technician

December 2013 - October 2019

Federal Electricity and water authority (FEWA), United Arab Emirates, Ras Al khaima

During my time as a Driver cum Technician at Federal Electricity and Water Authority (FEWA) in the United Arab Emirates, I gained valuable experience in both driving and technical skills. As a key member of the team, I was responsible for ensuring the safe transportation of equipment and materials to various locations as well as providing technical support for maintenance and repairs.

- Operated vehicles and maintained cleanliness
- Assisted in installation and repair projects
- Conducted regular vehicle inspections
- Provided technical support for maintenance and repairs

Meter reader

January 2009 - January 2010

Peshawar power supply, Pakistan, Peshawar

As a Meter Reader at Peshawar Power Supply, Pakistan from 2009-01 to 2010-01, I was responsible for accurately recording and reporting electricity usage for residential and commercial customers. This role required strong attention to detail and the ability to work independently in various weather conditions.

- Ensured accurate recording of electricity usage
- Worked efficiently in various weather conditions
- Maintained organized records and reports
- Communicated effectively with customers and colleagues
