Dubai Investment Park 1, UAE

EMAIL: aljohndequills@yahoo.com

SKILLS

- Know how to use measuring instruments (height gauge, plug gauge, vernier caliper, micrometer, angle protractor, profile projector, hole tester, dial indicator and etc.)
- Can read and analyze mechanical drawing.
- Computer literate (MS Word, Excel, Power Point etc.)
- Can operate both Manual and CNC Coordinate Measuring Machine (CMM).
- Can operate TORUS / TRAC gauge.
- Can operate Versatile Technology Gauges
- Attentive to each detail of the product.
- Knowledge in ISO.
- Knowledge in QMS.
- Knowledge in SPC.
- Knowledge in SAP.

EDUCATION

**Don Bosco Technical Institute
(Makati City)**

Mechanical Technology

Year Graduated 2009-2010

**Southern Luzon State University
B.S. Mechanical Engineering**

Inclusive Years 2006-2009

NATIONAL CERTIFICATES

Shielded Metal Arc Welding NCII
[268 Hours]

Machining NCII
[464 Hours]

Metrology
[268 Hours]

PERSONAL DATA

BIRTHDATE:
December 23, 1990

BIRTHPLACE:
Mauban, Quezon, Philippines

CIVIL STATUS:
Single

NATIONALITY:
Filipino

RELIGION:
Roman Catholic

AFFILIATIONS

Jr Chambers International
Junior Secretary / Mauban Chapter
2005 – 2008

Future Engineers League
Member / SLSU
2006 – 2009

Readers Club
President / Don Bosco Makati
2009 – 2010

Member / Mauban, Quezon
2009 – Present

SHINKOZAN CORPORATION [Quality Control]
September 2012 – March 2013
Cavite, Philippines

- Support the Engineering Staff in evaluating New Products for Development.
- Verifies specification required on Work Instruction, Mechanical Drawings, Solid Works or Blueprints.
- Approves / holds the parts based on the result of 1st Article and in time of inspection verification.
- Monitors the New Product from the start of the production up to the last process, to ensure that the product conforms to the Mechanical Drawing.
- Accompanies with an Engineering Staff to test the items on the customer, to see the critical parts of the items and to see the functions of each part.

METAL CAST CORPORATION [Quality Control]
May 2011 – June 2012
Cavite, Philippines

- Makes CMM programs on parts for development to be use for measuring of products, these programs will assure that the part conforms to customer's satisfaction.
- Evaluates the parts to determine non-conformance on machined dimensions.
- Conducts capability evaluation on critical dimension to assure that the part will run smoothly during mass production.
- Conducts 3 pieces product consistency on new products before informing the production that the parts are ready for mass production.
- Conducts 30 pieces Process Capability Test on new products to measure the capability of the machine for how long it would take in producing good parts.
- Authorizes to start or to stop the machine depending on the results of the data of the Coordinate Measuring Machine.
- Provides Inspection Instructions per product and monitor it from time to time in the result of CPK analysis.

GUNMA GOHKIN CORPORATION [Quality Control]
May 2010 – March 2011
Laguna, Philippines

- Operates the Manual or CNC CMM (Computerized Numerical Control Coordinate Measuring Machine)
- Hourly monitors on Machining and Die Casting In-process parts.
- Verifies 100% inspection on critical parts/dimensions.
- Makes basic programs on the in-process parts or die casting samples.
