PROJECTS

MICRO CONTROLLED FIRE EXTINGUISHER

08/2022 - 04/2023

Designed to provide complete coverage and protection against fire hazards from all directions

- These systems incorporate a wide range of fire protection measures such as fire alarms, fire suppression systems and fire extinguishers to detect control and extinguish fires effectively.
- The approach ensures that every area of a building is protected from potential fire hazards, Reducing the risk of damage to property, injury, and loss of life.

EXPERIENCE

Internship

Kerala State Road Transport

08/2022 - 08/2022 Pathanamthitta,India Depot

- My role as a mechanical engineering intern involved working closely with the engineering team to ensure the reliability and efficiency of the bus fleet.
- My internship at KSRTC provided me with valuable practical experience in the field of mechanical engineering, specifically related to public transportation.
- The opportunity to work alongside experienced professionals and contribute to real-world projects has significantly enhanced my technical skills and understanding of the industry.
