EDUCATION

M. Tech (Integrated) Computer Science And Engineering
Bharathidasan University, Trichy, TamilNadu, India
07/2019 - 05/2025   CGPA - 7.5

PROJECTS

Thyroid Prediction Using Machine Learning (01/2023 - 05/2023)
- Improved Diagnosis Accuracy: Machine learning refines thyroid disease predictions by analyzing complex medical data, enhancing early detection.
- Improved Diagnosis Accuracy: Machine learning refines thyroid disease predictions by analyzing complex medical data, enhancing early detection.

Intelligent Video Surveillance Using Deep Learning System (01/2025 - 05/2025)
- Public Safety Enhancement: Video surveillance detects crimes and accidents in key areas like banks and streets, improving security.
- Anomaly Detection in Banking: Machine learning with time series analysis identifies abnormal events, enabling early intervention.

SKILLS
- UI/UX
- Java
- HTML
- CSS
- Python
- JavaScript
- MySQL
- API Integration

TOOLS
- MS Office
- Figma
- Canva
- Adobe XD
- Google Worskpace

INTERESTS
- Poster creation & Video Editing
- Digital Marketing
- Unique content
- Social Media Trend Analyst

INTERNSHIP EXPERIENCE

Design UX / UI Course intern Koeenig-solutions (11/2024 - 02/2025)
- Experience-Driven Innovation — Harnesses research and prototyping to craft seamless, user-first interactions that elevate digital engagement.
- Design & Tech Synergy — Blends creative expertise with tools like Figma and coding skills (HTML, CSS, Python) to drive cutting-edge product development.

Junior Java Full Stack Developer intern FITA Academy (04/2024 - 08/2024)
- Java Genesis — Lays the foundation for Java programming, covering object-oriented concepts, syntax, and essential development techniques to craft robust applications.
- Code Craft: Java Mastery — Transforms beginners into skilled Java developers, blending logic, design, and coding expertise to build scalable and efficient software solutions.
- A Java developer is a code sculptor, crafting elegant, scalable solutions that transform logic into innovation and bring digital experiences to life.

CERTIFICATES
- Python, Flash Framework,HTML5 course (07/2022 - 03/2023)
  Info institute.
- Java Programming Bootcamp certification (01/2024 - 04/2025)
  TECH Solutions.
- CompTIA A+ Certification (Core 1 & Core) - Demonstrates foundational IT skills in hardware, software, networking, and security.

IT SUPPORTS
- Technical Support : Troubleshooting hardware/software, configuring operating systems, managing networks, and using remote support tools.
- Customer Service & IT Tools: Handling help desk systems, providing user support, and using productivity tools like Microsoft Office and Google Workspace effectively.

LANGUAGES
- English
- Tamil
