WORK EXPERIENCE

16/10/2023 – CURRENT Dubai, United Arab Emirates

Logistics supply chain coordinator Jumbo Electronic co (Ltd) L.L.C

- Logistics Executives oversee the transportation of goods, which may involve selecting carriers, negotiating contracts, and optimizing routes to reduce costs and delivery times.
- Managing and optimizing inventory levels to balance supply and demand while minimizing carrying costs and stockouts is a crucial responsibility.
- In addition to inventory accuracy, they manage E-commerce orders, store goods, and fulfill orders. Lower lead times and better customer service are two benefits of effective warehouse management.
- Building and maintaining strong relationships with suppliers is essential for negotiating favorable terms, ensuring quality, and managing the supply chain effectively.
- Leading and supervising a team of logistics professionals, including supply chain analysts, warehouse staff, and transportation coordinators
- Ensuring that the logistics operations meet the needs and expectations of the organization's customers, striving to provide timely and accurate deliveries.
- Identifying and mitigating risks in the supply chain, such as disruptions due to natural disasters or other unexpected events, is vital to ensuring business continuity.
- Ensuring that the organization complies with all relevant laws and regulations, including customs and trade compliance, is important to prevent legal issues and supply chain disruptions.

16/12/2022 – 03/08/2023 Dindugul, India

Warehouse operations manager SS logistics

- Oversee and manage all aspects of 3PL logistics operations, such as order processing, transportation, warehousing, including inventory management.
- In responsibility of a 45-individual of SS logistics team, providing direction and training to ensure high output and adherence to secure package delivery to the client's designated location.
- Work closely to negotiate contracts, settle conflicts, and improve overall service all throughout the end-to-end process with suppliers, carriers, and customers.

10/12/2021 – 11/10/2022 Coimbatore, India

Logistics coordinator FR8 New olog logistics Pvt Ltd

- Manage and oversee the supply chain, inventory, and transportation aspects of logistics operations.
- Work together to negotiate contracts, find solutions for problems, and raise service standards overall with suppliers, carriers, and clients.
- To increase visibility throughout the supply chain and streamline procedures, make use of warehouse management systems (WMS) and transportation management systems (TMS).

10/06/2020 – 15/11/2021 Dindugul, India

Logistics supply chain coordinator Reliance DC

- In an effort to ensure high productivity and compliance with safety rules, oversee a team of 60 dispatchers who hold responsibility for labeling, checking, online order management, dispatch, and performance evaluations.
- Establish and manage key performance indicators (KPIs) to track and evaluate logistics effectiveness, guaranteeing customer satisfaction and on-time delivery.
- Oversaw the daily shipment of apparel and electronics for several Reliance stores in Tamil Nadu and Kerala, ensuring compliance with client requests.

03/08/2018 – 15/09/2019 Jaipur, India

Warehouse supervisor Amazon

- Oversee a group of forty-five pickers. Maintain high productivity and safety standards by using order management systems (OMS) and warehouse management systems (WMS) to assign assignments, track orders, and keep an eye on inventory levels.
- Work together with other departments, like transportation and inventory control, to guarantee effective workflow and prompt order shipment.
- Determine where the process may be improved, then make the necessary adjustments to improve picking accuracy, efficiency, and safety.
- To reduce product damage and loss throughout the picking and packing procedures, teach and enforce appropriate handling and storage techniques.

09/10/2017 – 13/09/2018 Mumbai, India

Chief operating officer Thyrocare Technologies Ltd

- 172 franchises are under me with oversight and direction in the South Zone (Tamil Nadu & Kerala). I take responsibility for maintaining brand standards, operational efficiency, and financial performance.
- Develop and carry out strategic strategies for the quick and safe transportation of blood samples from franchise centers (TAT) to the head office lab.
- Conduct frequent meetings and training sessions with franchisees to exchange best practices, give updates on business plans, and build a cooperative and encouraging franchise network.
- Assure adherence to brand guidelines, operating protocols, and customer service standards by recruiting, training, and offering franchisees continuing assistance.

06/11/2012 – 15/11/2015 Coimbatore, India

Warehouse supervisor Jai Sai export and import

- Oversee and plan every step of the production process, making sure that safety operations, quality standards, and production timelines are followed.
- Work together with cross-functional teams from planning, purchasing, and quality control to guarantee efficient production flow and satisfy client demands.
- To maximize productivity and cut waste, track the status of production, spot bottlenecks, and make process changes.
- To minimize manufacturing holdups, coordinate with suppliers and logistics firms to guarantee the timely delivery of components and raw materials.
