

SARKHIL CHINDE

+971-545166118

chinde.sarkhil@gmail.com

Qualification :

- **Bachelor of Engineering (B.E.) – Electronics & Telecom.**
- **Post graduate certification in “Advanced Embedded Systems Design”**

Skills :

- Desktop Support
- Computer knowledge
- Trouble Shooting
- H/W & S/W maintainance
- Programming
- Coding
- Debugging
- Testing
- ITIL, ITSM knowledge
- Development
- Design
- Product development
- Artificial Intelligence
- Requirement Analysis
- Market research & Analysis
- Quick learner
- Documentation
- Team and Individual player
- Good communication skills
- Excel in the task at hand
- Time management

An enthusiastic Electronic Engineer with “Excel at the task at hand” approach and keenly interested in latest technologies like Computer management, Information Technology, Artificial Intelligence, Cyber security, Prompt Engineering, Python etc and having experience in Embedded design and development, Marketing, Product promotions and Documentation seeking an opportunity in which my skills can be utilized for the growth and development of both, the self and the organization.

Personal Details :

Nationality : Indian
Visa status : Tourist
Current address : Bur Dubai, Dubai

Experience :

- **M/s. Emco Electronics** at Vasai (E), Mumbai : **16+ years**

Scope of work :

- Desktop support, Computer operations and maintenance.
- IT infrastructure Hardware & Software management.
- Disk partitioning and Multi-boot Operating Systems.
- Installation of Windows and Linux Operating systems
- Installation and configuration of Software's including Office 365, Antivirus, Email client and other software's and configurations.
- Coding and Programming.
- Adding Artificial intelligence for USP's.
- Software, Firmware and Hardware development.
- Complete product development from concept to realization.
- Documentation for all departments including ISO.

Areas of Interest :

- Desktop Support
- Cyber Security
- Prompt Engineering
- IT management
- Artificial Intelligence
- Python

Professional Summary :

- Experience of more then 16 years.
- Managing and continuously improving Computer's and IT activities of the company.
- Worked on installation of Window, Linux operating systems and Multi boot systems including Boot loaders, Driver installations etc.
- Worked on Hardware configuration including RAM, Hard disks etc, and other hardware parts.
- Securing data by taking backups of all required information including emails
- Worked on installation of Software's and packages.
- Promoted as Asst. Manager and appointed as Management Representative (MR) of the company.
- Extensively worked on Office sw. like MS Office, Libre Office etc.
- Worked on complete product development cycle from concept to product realization including Coding, Programming, Hardware, Firmware, Software, PCB design, Mechanical etc.
- Worked on industry standard CAD and Graphics software like CorelDraw, AutoCAD, KiCAD etc.
- Marketing tasks like Customer interaction, Product demos etc.
