## EXPERIENCE

### PRODUCTION ENGINEER

#### Adarsh Engineering | 2021-2023

- Specializes in manufacturing stone grinding machines, catering to different industrial needs.
- Collaborated with cross-functional teams to troubleshoot and resolve production issues, minimizing downtime.
- Expertise in selecting and applying grinding wheels based on material specification and finishing requirements.
- Proficient in using measuring instruments such as calipers, micrometers, and height gauges to verify and maintain dimensional accuracy.

### PLANT SUPERVISOR

#### IndiGrate Composites | 2020-2021

- Specialized in grating FRP (Fiberglass Reinforced Plastic) to ensure product quality and compliance with production standards.
- Efficiently handled material inventory in the store to facilitate smooth production processes.
- Successfully managed day-to-day production operations in accordance with established planning guidelines.
- Played a key role in managing procurement activities, ensuring the timely acquisition of necessary materials for uninterrupted production.
- Conducting preventive maintenance and overseeing the maintenance of all the machines within the plant.
