# Angitha NK

## About me

I am a passionate BCA graduate with a specialized certification in UI/UX design. My academic foundation in computer applications combined with my creative and technical skills in UI/UX design enables me to approach challenges with a user-centric mindset. I am eager to apply my knowledge and experience in various fields, including e-commerce, administration, sales, and retail. With a strong ability to adapt to dynamic environments, I am committed to contributing positively to team success while constantly developing my skills in an ever-evolving industry.

## Experience

### Browse House

*Total IT Solutions* January-July 2024

Part-time role of receptionist, managing front desk operations and customer interactions efficiently.

### UI/UX Designer

*Web Castle* July- November 2024
