

ILIASSE ADAOUD

26/05/2000

OBJECTIF

Passionate about the prestation of several Sanctuary exceptions, I have a firm to develop with a solid academic training and clinical experience. This object is used to provide all the patient's hospital axes in collaboration with a multi-disciplinary device to provide better clinical results. I have a dynamic environment, and I also have many different clinical competencies, such as the capacity for more urgent situations and more engagement with patients’ education. This will always be a significant contribution to the prestation of good quality and the enjoyment continues to practice good health.
