91%

## PROJECTS

- **Stock Management System 2022**

Supermarket stock management system refers to the system in which all parts of stock management are handled. These considerations include information about the selling items, management, expiry, date of manufacture, billing, alert notification etc. This can keep track of the sold items and the information is updated as the stock gets cleared and the firm gets alerted on upcoming expirations of the stock.

- **Academic Project BIO Card 2020**

BIO Card (Basic Information Organized Card) is organization of all our documents in one card. This card can use to access Aadhar, License, PAN and Ration card and it also like a container. It can save our certificate copies and other documents. It's a RFID card so it can use without touching or swiping.

- **Desktop Applications 2023**

Designed and developed windows applications using c#.
