Skills

- Good Communication

- Team leader
- Quick learner
- Active listener
- Ms Excel
- Commitment towards task
- Time Management

Projects

- **Electric Cycle**

To convert a manual bicycle to e - cycle.

I have used 24 v battery and - 250 watt motor, brake lever, etc.

Steps -

- 1) In the reconstruction of bicycle that costs lesser than the cost available in market.
- 2) Remove existing Components before installation of the new e-cycle components, we have to remove some existing parts from the cycle.
- 3) Installing the Motor.
- 4) Mounting the Battery.
- 5) Installing the Controller and Throttle.
- 6) Setting Up Pedal.

Final Assembly of the parts and after assembly testing of the e cycle.

- **HVAC**

My final year seminar topic was basics of HVAC.

Topic involved -

Types of air conditioning system, types of duct designing and factor affecting human comfort.
