

# Akhil Raj C

## ABOUT ME

I have strong experience in report creation, buying, and supply chain support, excelling in supplier management and product availability. I work with cross-functional teams on category changes and negotiations, and my focus on continuous improvement drives successful CI projects. I am dedicated to accurate reporting and maintaining strong stakeholder relationships.

## WORK EXPERIENCE

### Senior Associate - Buying Assistant

TESCO BENGALURU / BENGALURU / Aug 2023 - Jun 2024

- Created Reports for the business requirements.
- Assist in the annual Supply Base Evaluation process review and document cost, retail, and promotion requests for supplier negotiations.
- Collaborate with Supply Chain and Trade Planning teams to ensure excellent product availability and liaise with Suppliers and Technology teams for new product and supplier induction.
- Support the execution of category range changes according to plan.
- Build and maintain strong relationships with Suppliers and Stakeholders and ensure timely and accurate business reporting.
- Promote a Continuous Improvement (CI) culture, carry out CI projects, encourage innovation, and perform miscellaneous duties as required.

### Associate SRM OPS

TESCO BENGALURU / BENGALURU / Mar 2022 - Aug 2023

- Develop efficient and customer-friendly store layouts using CAD and JDA Space Planning software to optimize space utilization and enhance the shopping experience
- Design and arrange store fixtures, shelving, and displays using JDA software to maximize product visibility and accessibility.
- Ensure all designs adhere to relevant building codes, safety regulations, and brand guidelines.
- Coordinate with stakeholders to ensure timely and budget-compliant project completion.

### MEP Design Engineer

Green House Designers & Builders / Trivandrum  
/ Aug 2019 - Feb 2022

- Develop and review detailed designs and technical drawings for MEP systems using CAD software.
- Collaborate with architects, contractors, and other engineers to ensure integrated and efficient building systems.
- Ensure all designs meet relevant codes, standards, and regulations.
- Oversee the installation and commissioning of MEP systems to ensure they meet design specifications and quality standards.

### HVAC Engineer

Prime MEP & Refrigeration / Calicut / Jun 2017 - Jul 2019

- Develop detailed designs for HVAC, MEP, and refrigeration systems using engineering software.
